BRAGG'S INDIAN QUEEN VEGETA-BLE SUGAR COATED PILLS,

The Great Popular Medicine Of the day---Vast amount used per moath---The numerous and Wonderful Cures it effects--- Its Magical Effect upon Bilions Fevers, and Fever and Ague--- Great Excitement among the

Doctors! THE INDIAN QUEEN VEGETABLE SUGAR COATED PILLS ARE now admitted, on all hands, to be the most extraordinary and valuable medicine in general use. It not only acts as a specific upon Bilious and Typhus Fevers, Chilis and Fever, and Fever and Ague of the west and south, but in all diseases of debility, weak stomach, indigestion, loss of appetite, impurity of the blood, and all diseases prevalent in a western and outhern climate. Their great power consists in their peculiar effect upon all the organs of the system, and the rapid formation of new and rich blood, which they produce. In this lies the great secret of their success. They are mild and pleasant in their action, but searching and permanent in their effect; penetrating the remotest recesses of the system by their ready absorption into the blood, thereby infusing a new supply of vitality and nervous power into all the machinery of life The extensive popularity they have acquired allover the west and

south, ensures sales of at least 50,000 Boxes per Month, And we find it difficult, with our large lorce of hands, and the late improvements in machinery which we have adopted, to manufacture them fast enough to supply the demand in thirteen western BY virtue of an execution to me directed from the clerk's office and southern States! the tonic pills will never for sake them.

500 do of Scarlet Fever; 400 do of Typhus Fever;

360 do of Putrid Sore Throat. This must appear almost incredible, but the numerous letters from physicians, agents, and those who use the medicine, from all the western and southern States, satisfy no that this is a moderate stimate, and that our medicine is rapidly taking the place of the various sugar-coated counterfeits who have afford, and the numerous tonic mixtures, made wholly of quenine, which are imposed upon the public by manufacturers who live, nobady knows where!
